ABOUT US

Agrow Allied Ventures Pvt. Ltd. (AAVPL) is world's leading manufacturer of Technical and Formulations Herbicides, Insecticides and Fungicides. We have state of the art technical manufacturing plant with capacity of 30,000 mts and an Ultra Modern Plant to produce all kinds of formulations like liquid, powders, granules and various combination products. Our company is government recognised Star Export house, exporting to more than 80 countries today, with global registrations in North and South America, Europe, Africa, Middle East and S-E Asian Countries.

Our Company hold licenses to manufacture over 40 technical and 300 formulation products. Plant is Strategically located and designed to meet international and domestic market requirements. Our strong R&D team continuously works hard to produce high quality products at the most competitive prices. Agrow Allied aims to serve farmers with the best crop protection solutions to fight pests and to maximise farm yield.

- **Govt. recognised STAR EXPORT HOUSE.**
- **We are certified by the below bodies**

GLOBAL PRESENCE

The world is becoming a global village and we are going beyond geographical boundaries. As a leading pesticide manufacturer, we have spread across with 80+ countries like South and North America, Middle East Africa and South East Asian geographies and are constantly expanding. Agrow Allied manufactures products with government regulations and international requirements. The company has a competent team to conform to the norms of the regulatory of different countries. The company heavily invests in data generations. At Agrow Allied we have a strong international marketing team specialized in the Agro industry.

Our company holds nearly 500 global registrations in various countries and many more in the pipeline.
