## 4. First Aid Measures

**Skin Contact:** Wash material off the skin in flowing water or shower with soap. If irritation persists, consult a physician immediately.

**Eye Contact:** Immediately flush with copious amount of water for at least 15 minutes.

**Inhalation:** Remove the victim to fresh air and keep him warm and quiet. Get a medical attention immediately. If not breathing, clear the airway and give artificial respiration. If breathing is difficult, give oxygen.

**Ingestion:** Induce vomiting by giving one or two glasses of water. Get a medical attention immediately. If the victim is unconscious or having convulsions, never give fluids nor induce vomiting.

### ADVICE TO DOCTOR

No specific antidote if ingested. Treat symptomatically.

### **5.Fire Fighting Measures**

**Extinguishing Media:** Water, dry chemical powder, foam or carbon dioxide

**Special Fire Fighting Procedure:** Use water, dry chemical powder or carbon dioxide in extinguishing. For a fire in surrounding area, apply water to cool and protect surrounding equipments. Remove containers, if feasible, from the fire area to safe place immediately. Fire fighters should wear protective gears including a positive pressure self-contained breathing apparatus. Evacuate non essential personnel.

### **6.Accidental Release Measures**

#### **In Case of Spill or Leak**

Control the spill at its source. Contain the spill to prevent from spreading or contaminating soil or from entering sewage and drainage systems or any body of water.

Clean up spills immediately, observing precautions outlined in Section 8. Cover entire spill with absorbing material and place into compatible disposal container. Scrub area with hard water detergent (e.g. commercial products such as Tide, Joy, Spic and Span).

Pick up wash liquid with additional absorbent and place into compatible disposal container. Once all material is cleaned up and placed in a disposal container, seal container and arrange for disposition.

### **7.Handling and Storage**

Store the material in a well-ventilated, secure area out of reach of children and domestic animals. Do not store food, beverages or tobacco products in the storage area.

Prevent eating, drinking, tobacco use, and cosmetic application in areas where there is a potential for exposure to the material.

Wash thoroughly with soap and water after handling.

### 8.Exposure Controls/Personal Protection

**Engineering Controls:** The use of local exhaust ventilations is recommended. Containers should be kept tightly closed. Make available emergency showers and eye washes in a work area.
